

Application No. 10/529,042
Amendment dated June 30, 2008
Reply to Office Action of March 28, 2008

AMENDMENTS TO DRAWINGS:

The attached sheets of drawings include changes to Figures 1 and 2. These sheets replace the original sheets including Figures 1 and 2. In particular, Figures 1 and 2 have been amended to remove reference number 7. Figure 2 has been further amended to correct errors in the presentation of the reference numeral relating to the pump 9.

Attachment: Replacement Sheet
Annotated Sheet Showing Changes

Application No. 10/529,042
Amendment dated June 30, 2008
Reply to Office Action of March 28, 2008

REMARKS

**Reconsideration And Allowance
Are Respectfully Requested.**

Claims 1-20 are currently pending. Claims 1, 10, 12 and 18 have been amended. No claims have been added. No claims have been canceled. No new matter has been added. Reconsideration is respectfully requested.

Claims 1-20 stand rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims have now been amended to overcome all of the 112 rejections set forth in the Office Action and as such it is requested this rejection be withdrawn.

With regard to the amendment to the specification support may be found throughout the specification and in particular at paragraphs 11 and 12 and claim 1 as originally filed. The disclosure clearly states that the signals from the timer are fed to the integral processor and, further, that the processor controls the pump. As such the applicant respectfully submits that it does not constitute new matter to introduce reference number 5 and 9 shown in the drawings in to the specification. In this case, there is clear support in the specification for the role of 5 and 9. The identity of 5 and 9 is evident from the context.

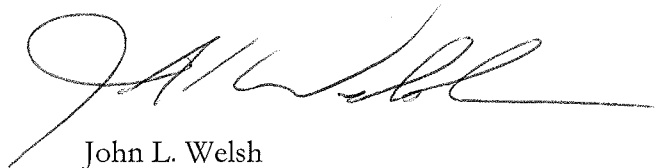

With regard to the Abstract, applicant respectfully submits that the current amendments to the abstract obviate the objection and, accordingly, requests that the objection be withdrawn.

Application No. 10/529,042
Amendment dated June 30, 2008
Reply to Office Action of March 28, 2008

With regard to the drawings, applicant respectfully submits that the current amendments to the specification obviate the objection with respect of drawing references 5, 9 and 10 and, accordingly, requests that these objections be withdrawn. Further, applicant respectfully submits that the replacement drawing sheets, which remove drawing reference 7 in Figure 1 and replace it with 9 in Figure 2, obviate the objection with respect of drawing reference 7 and, accordingly, requests that the objection be withdrawn.

It is believed that this case is in condition for allowance and reconsideration thereof and early issuance is respectfully requested. If it is felt that an interview would expedite prosecution of this application, please do not hesitate to contact applicant's representative at the below number.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'J. L. Welsh', with a long horizontal flourish extending to the right.
